## EFT.G100

# MULTICOLOR EFFECT GOLD

### NATURE AND PRODUCT FEATURES:

Pigment consisting of special coated particles, characterized by multicolor reflections in predominantly golden color.

### FIELD OF APPLICATION:

Giftware, cosmetics, furniture, handicrafts, cell phone covers, small appliances, fairground items, etc. etc.

### HOW TO USE:

The pigment in question should be added and dispersed in percentages from 0.3% to 0.5%.

It can be added to matte base resins, or to gloss and/or matte topcoats, acrylic or polyurethane two-component type.

For best color rendition, it is recommended to use as a base coat, primers or undercoats of dark shades.

### STORAGE CONDITIONS:

In unopened and sealed packages, kept at a temperature of +5 to +30 °C.

### SAFETY REGULATIONS:

Strictly follow the instructions on the labeling and in the safety data sheet.

*The data and information contained in this sheet are the result of our experience and accurate laboratory tests. However, since the painting process represents a set of operations that are beyond our control, they do not therefore guarantee, in any way, the final performance of the cycle.*
