EFT.S300

MULTICOLOR EFFECT SILVER

NATURE AND PRODUCT FEATURES:

Pigment consisting of special coated particles, characterized by multicolor reflections in predominantly silver color.

FIELD OF APPLICATION:

Giftware, cosmetics, furniture, handicrafts, cell phone covers, small appliances, fairground items, etc. etc.

HOW TO USE:

The pigment in question should be added and dispersed in percentages from 0.3% to 0.5%.

It can be added to matte base resins, or to gloss and/or matte topcoats, acrylic or polyurethane two-component type.

For best color rendition, it is recommended to use as a base coat, primers or undercoats of dark shades.

STORAGE CONDITIONS:

In unopened and sealed packages, kept at a temperature of +5 to +30 °C.

SAFETY REGULATIONS:

Strictly follow the instructions on the labeling and in the safety data sheet.

The data and information contained in this sheet are the result of our experience and accurate laboratory tests. However, since the painting process represents a set of operations that are beyond our control, they do not therefore guarantee, in any way, the final performance of the cycle.
