

Data sheet

Z.030

ADHESION-PROMOTING ADDITIVE

NATURE AND PRODUCT FEATURES:

Mixture of solvents and additives.

FIELD OF APPLICATION:

Degreaser with mild passivating action for steel, galvanized steel and aluminum.

PREPARATION OF THE PRODUCT:

Product ready for use.

HOW TO USE:

Apply the product by spray or brush, and then, after 5 to 10 minutes, wipe it off with a cloth. After the treated surface is completely dry, proceed to painting.

SAFETY REGULATIONS:

Strictly follow the instructions on the labeling and in the safety data sheet.

STORAGE CONDITIONS:

The storage room must be dry and with a temperature between +10 °C and +35 °C.

The data and information contained in this sheet are the result of our experience and accurate laboratory tests. However, since the painting process represents a set of operations that are beyond our control, they do not therefore guarantee, in any way, the final performance of the cycle.
