Z.209

ADHESION-PROMOTER ADDITIVE FOR GLASS

NATURE AND PRODUCT FEATURES:

Mixture of solvents and additives.

FIELD OF APPLICATION:

Adhesion promoter, active on glass surfaces.

Suitable for improving the degree of adhesion of two-component epoxy paints **80VT000** and **80VT500**.

HOW TO USE:

Add to the paint or enamel (component A) in the amount of 2 to 3% by weight, and mix with the stirrer if possible.

SAFETY REGULATIONS:

Strictly follow the instructions on the labeling and in the safety data sheet.

STORAGE CONDITIONS:

The storage room must be dry and with a temperature between +10 °C and +35 °C.

The data and information contained in this sheet are the result of our experience and accurate laboratory test. However, since the painting process represents a set of operations that are beyond our control, they do not therefore guarantee, in any way, the final performance of the cycle.
