## STP Series

# SUPERPREDISOL CONCENTRATED DYES

Always close  
cans after use

### NATURE AND PRODUCT FEATURES:

Concentrated pigment dyes based on special resins and solvents with broad compatibility spectrum.  
Available in various colors.

### FIELD OF APPLICATION:

Use in solvent-based paint products, suitable for use on products exposed outdoors.  
Check the compatibility of the dye with the paint used (*consult Vernici Caldart R&D Laboratory*).

### PREPARATION OF THE PRODUCT:

**Dyes should always be stirred before use.**

Use up to **25% MAX**, performing careful preliminary tests for suitability to specifications before moving to industrial-scale or production use.

### STORAGE STABILITY:

Store in original sealed containers in a closed environment at a temperature between +5 °C and +30 °C.  
Avoid direct exposure to the sun.

**Close containers thoroughly immediately after use.**

**Always stir well before use.**

### SAFETY REGULATIONS:

Strictly follow the instructions on the labeling and in the safety data sheet.

*The data and information contained in this sheet are the result of our experience and accurate laboratory tests. However, since the painting process represents a set of operations that are beyond our control, they do not therefore guarantee, in any way, the final performance of the cycle.*
