

INDUSTRY & CAR REFINISHING DIVISION - PRODUCT SHELF LIFE

the chemical characteristics, including colour, of our products remain stable for the duration shown in the table if the following storage conditions are maintained:

Water-based products from + 5°C to + 35°C - Solvent-based products from 0°C to + 35°C

In any case, it is recommended to consult the Technical Data Sheets, available on our website: www.vernicicaldart.it.

The "shelf life" is valid only for products in the price list (ready in stock).
For the remaining products (NOT in stock), see the reference technical data sheet.

Industry & Car Refinishing	Products	Type	Months - Shelf life
Colortech tinting system	Tinters series P.xxx and TP.xxx	Solvent-based	24
	Tinters series P.7xx and P.8xx		12
	Binders K.xxx		36
	Binders K.631 - K.624 - K.854 - K.922		12
Colortech tinting system	Tinters series PWxxx	Water-based	24
	Tinters series PW7xx		12
	Tinters series PW8xx		12
	Binders KWxxx		12
Products ready for use	Primers	Solvent-based	12
	Filler pastes		12
	Finishings		12
	Clear coats series 700		24
	Series 800 and 900		12
	Effects (series EFT.)		12
	Monoflex series 994.		12
Products ready for use	Acrylic Primers series 793W	Water-based	12
	Epoxy Primers series 193W		24
	Finishings		24
	Clear coats series 7xxW		12
	Oven 1K		12
Hardeners	Epoxy CZ.1xx	Solvent-based	36
	Acrylic CZ.7xx		18
	Polyurethanic CZ.2xx		18
Hardeners	Epoxy CZW1xx	Water-based	18
	Acrylic CZW7xx		18
	Polyurethanic CZW2xx		18
Additives	Z.xxx	Solvent-based	24
Additives	ZWxxx	Water-based	24
Thinners	D.xxx	Solvent-based	60
Colourants	Concentrates series 50100M and Predisol	Solvent-based	12
